2.	products. Its monthly output, up to May 1951, was between 10,000 and 13,000 tens of steel, although at certain times monthly output reached 18,000 tens.  Special steel for ball bearings was produced at the rate of 500 tens per menth; steel for shells, called type OP (Otel de Proectile—steel for shells), 600 tens per month; steel for specifications from 34 kilograms to the square millimeter to 145 kilograms per square millimeter was also						
	produced in an unknown quantity day.						
	iron works, CSH, were equipped with five Siemens Martin ovens at capacity.						
4.	The CSH is in the process of installing a coke plant, which reputedly will be the largest in Eastern Europe. In addition, laminating machinery for two more units which will produce iron plates for shipbuilding is under construction.						
5.	A very large hydraulic scissors for cutting hot steel sheets was imported and installed within a period of three months.						
6.	A soviet team of geologists explored the area in the environs of the factory and ware successful in finding large quantities of good quality ore.						
7.	Efforts were being made for inc security soldiers were sent to guards, who were utilized in ac total labor force of the combin	the industrial plant tual production.	to replace the worker the	50X1-HUM 50X1-HUM

The Siderurgical Combine at Hunedoara, Rumania

The following numbers correspond to the numbers on the attached sketch entitled: "Metallurgical Works at Hunedoara;"

- Five large furnaces 2. Warehouse for tools
- Construction materials warehouse

gasoline storage area at Maruntis are attached.

- Technical offices
- 5. Fire station
- 6. Water cooling plant
- 7. Electric power plant with two Diesel motors; supplementary electric power is brought from Brad by three overhead wires.
- Area in which iron mineral ore is prepared for the furnaces

pace, capacity equal to five smaller ones

- General shop
- Forge
- Steam power plant and compressors
- Iron casting section. "a" denotes five Siemens-Martin furnaces
- 16. Laminated iron shop
- 17. Main electrical installations
- 18. Lathes
  19. Electric furnace for special steel of high resistance
- 20. Gates for the plant; there are eleven of them

- 21. Railroad
  22. Railroad station
  23. Direction toward Hunedoara railroad station
- 25. Laminated iron storage area
- 26. Coke ovens
- 27. Cast iron foundry called Patria.
